

Factory Method

Karoly Nyisztor

DEVELOPER

@knyisztor www.leakka.com

Overview

Motivation

ColorThemePicker

Motivation

Hide Implementation Classes

- Create new objects without exposing the implementation classes
- Classes must implement a common protocol/base class

Factory Method

The Factory Method selects the implementation class to instantiate based on the criteria supplied by the caller. The caller must only know a single type.

Demo

ColorThemePicker Demo

Summary

Factory Method

- Hides implementation classes from callers
- Callers only know about the common protocol/base class and the factory method
